Special Event Station

The 96th Anniversary of the Titanic Disaster

FOR IMMEDIATE RELEASE:

Your club members have been invited to come operate with us in Branson, MO for the 96th Anniversary of the Titanic Disaster. Last year our press release hit 111 news wire services around the world in two days. This is an internationally recognized Special Event Station and here is a once in a lifetime opportunity to participate.

Icom is our official supplier of radio equipment. Last year we had two Icom 756 Pro III transceivers and two PW-1 amplifiers. If more HF stations are needed, Icom will supply us as many stations as needed. We have crank up towers with TA-33 beams, as well as, wire dipoles for the lower frequencies. There is room for all, hams and non-hams. We are in full view of the public between the Entrance and Exit outside the Museum. This is to honor the two brave wireless operators Jack Phillips and Harold Bride.

Please visit our website at www.wØs.org. for more information and scheduling of operating times. All updates for this event will be on this website, so please visit often for new information. We would appreciate this announcement on your local nets and club website. If any questions, please feel free to contact me at waØsap@att.net.

Thank you from the “Titanic Four”

Dave “SAP” Beckler, WAØSAP, Al Gallo, WØERE, Rich Vogt, KB9YZE, and Rod Kittleman, KØADI
